This award winning musician is seen in the movies, *Songcatcher* and *The Journey of August King*, as well as at prestigious music festivals and camps throughout the country.

This Master of the Old-Time Mountain Dulcimer with his extensive repertoire of rare and beautiful tunes and songs combined with a warm personality, provides a non-competitive setting to keep workshops fresh, invigorating, and fun for players of all levels. We will explore Strumming and Noting techniques and how to integrate them, then apply them to playing a tune by “ear.”

You’ll have dulcimer tab to take home.

Participate in the workshop and then listen to Don Pedi’s timeless expression of creativity as he presents his unique style of mountain dulcimer playing and singing.
